Take Control of Your Cutlery

Experience the power of the SmartStock® Tri-Tower Cutlery Station to help your operation reduce cutlery usage, enhance hygiene, streamline employee tasks, and maximize counter space. Dispensers come in two sizes, including a Mini that's sized to fit tighter spaces. Isn't it time to take control of your cutlery and improve operations?

Why SmartStock® Tri-Tower is Good for Business

Hygienic, Automatic Dispensing

Touchless dispensing means no buttons or levers to push, so patrons touch only the utensils they need. Cutlery is dispensed one at a time, which can help reduce cutlery usage by 31% on average.¹

High-Capacity Efficiency

Tri-Tower holds 390 utensils and Mini Tri-Tower holds 195, so restocking can be less frequent. And three universal cutlery chambers allow the flexibility to offer any combination of utensils.

Convenient 3-in-1 Station

Fill dispensers with any combination of cutlery, so patrons get all their cutlery at one station. Replaceable "cutlery badges" above each dispenser opening indicate exactly which utensil they're selecting.

Easy and Intuitive for Employees

Dispensers are fully enclosed to promote hygiene. Pre-counted, dispenser-ready cutlery refills help reduce loading time, and color display indicators show employees when refills are needed.

Reliable Technology, Space Efficient

Operators trust Tri-Tower for consistent performance and ease of use. These dispensers require very little counter space and can also be mounted on the wall.

Customizable Inserts

Dispenser inserts are available to add colorful design and messaging to the exterior. Or, you can order customized inserts with your own messaging and/or branding.
